

Luke Ramsden

Co-Founder & CPTO

hello@lukeramsden.com · lukeramsden.com · /in/lukerramsden · github.com/lukeramsden

PROFILE

Self-taught engineer. Coding since nine, professional from 14. Led mobile development at Zilch as it became Europe's fastest fintech unicorn; built low-latency e-trading infrastructure at TransFICC. Now co-founder and CPTO of Architect, owning product and engineering end to end.

EXPERIENCE

2024 —

Architect

Co-Founder & CPTO · London / San Francisco

Agentic website platform: conversational AI agents deployed to B2B websites via a one-line script tag. Raised \$4.75M from Project A, Concept Ventures, and others. Hired and lead a team of eight. 25+ production customers including Airwallex, Rho, Temporal, and SOCi.

2022 — 2024

TransFICC

Lead Software Engineer · London

Microsecond-sensitive e-trading connectivity on the Aeron messaging platform, carrying live pricing, orders, and post-trade flows for fixed income desks at Citi, JP Morgan, Santander, and RBC.

2021 — 2022

AskPorter

Software Engineer · Remote

Full-stack product engineering on an AI-powered property management assistant.

2021

Zilch

Software Engineer · Remote

Led mobile development through a \$2B valuation — Europe's fastest run from Series A to unicorn.

2016 — 2021

Early career

Software Engineer · Blackpool

Professional from age 14 across Tiss, Karma Applied Science, and Happy Story: full-stack web and mobile product work.

PROJECTS

2025

Lunar stamp franking

World first · Isle of Man Post Office

Co-built the software behind the first digital franking of postage stamps from lunar orbit, flown aboard Lonestar's Freedom payload (Intuitive Machines / SpaceX). Press coverage.
